Chi siamo

-Siamo designer di canne da pesca, e siamo pescatori. Grazie alla vasta esperienza dei nostri designer in ogni tecnica di pesca, i nostri prodotti sono sempre manufatti per essere i migliori in termini di efficienza e utilizzo da parte del pescatore.

-“Torpedo” è un marchio di attrezzature da pesca. I caratteri distintivi sono il design 100% Italiano, l’accuratezza dei dettagli e i rigorosi test che i nostri prodotti subiscono prima di essere immessi sul mercato.

-Torpedo è stato creato nel 2011, ed appartiene a Mountain Fishing Equipment Ltd, una società di design italiana, diretta e gestita da Italiani, con sede a Hong Kong.

-Noi crediamo che sia il pescatore a fare la differenza, e evitiamo quindi materiali inutilmente costosi. I costi delle nostre canne sono quindi contenuti e mai vi faremo pagare fronzoli legati alla vanità piuttosto che all’efficienza. La componente estetica è tuttavia tenuta in considerazione partendo da un concetto di sobrietà, con accessori impresiositi da colori contrastanti e innovazione.

Offriamo un aiuto a 360 gradi su ogni aspetto della produzione di articoli da pesca: dal disegno, alla produzione industriale alla spedizione in qualsiasi parte del Globo.

- a conoscenza dei difetti ricorrenti durante un processo di produzione industriale e quindi i nostri prodotti sono testati rigorosamente prima dell’immissione sul mercato. Ci sentiamo responsabili della soddisfazione degli utilizzatori delle nostre canne sin dalle prime fasi della loro lavorazione.

-Siamo alla ricerca di nuovi prodotti per allargare l’offerta di prodotti da immettere sul mercato per soddisfare la domanda dei pescatori più esigenti e per anticipare il mercato tradizionale dei negozi.

-La nostra Mission: aumentare il livello di godibilità della pesca sportiva aggiungendovi valore attraverso i nostri prodotti.

-La nostra Vision: i pescatori di tutto il mondo impareranno ad apprezzare i nostri prodotti per la loro eccezionale affidabilità e stile estetico distintivo.

About us

- We are designers of sport fishing equipment, and we are fishermen. Thanks to our extensive background in the sport fishing, our products are designed to be the best in terms of efficiency.

“Torpedo” is a brand of Sport fishing equipment. The distinctive marks are the 100% Italian design, and the accuracy with which our products are tested before going on the market.

-Torpedo was born in 2011, created by Mountain Fishing Equipment Ltd, an Italian design company, Hong Kong based

- Every fisherman knows that some expensive and fancy material can't change the fact that you are good at using it. Our fishing rods are made only with solid materials: high resistance carbon, stainless steel and aluminum.

- We offer a 360 degrees help on any side of the production of sport fishing equipment, and produce a high quality range of products.

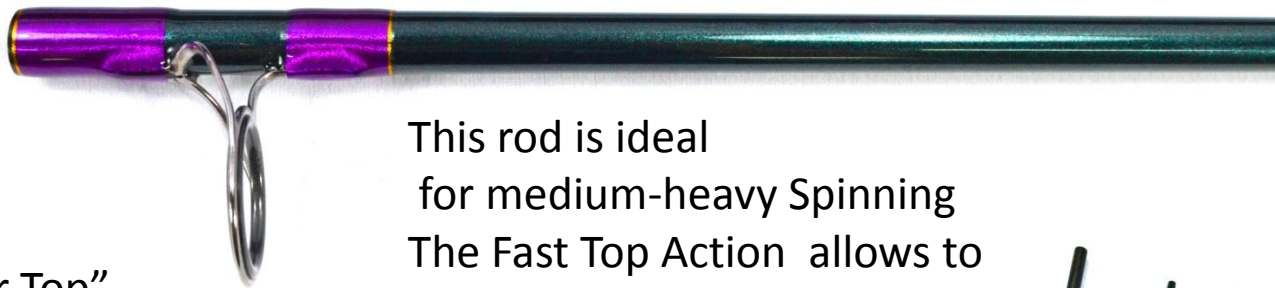

-Mountain Fishing Equipment Limited is a design company for sport fishing equipment, and we personally test every of our product before putting it on the market. During this phase we know that we have a big responsibility on the customer, so we pay particular attention to all the smallest details of our items.

- Looking for enlarging our products portfolio soon, by now we are very satisfied of the results that we have achieved. With our current products we cover most of the fun that a fisherman can get, and we are willing to continue improving the fisherman's life.

Our Mission: increase the level of enjoyability of sport fishing by adding value to it through our products.

Our Vision: fishermen all over the World will learn to appreciate our products for outstanding reliability and design.

“Bonzer Top”

- Length: 305 cm / 10 Ft
- Cast from 15 to 40 gr.
- Line weight: up to 25 lbs
- Fast Top action
- Body in High grade carbon Graphite
- Reel seat in extra light aluminium
- Stainless Steel guides
- SIC ceramics

This rod is ideal for medium-heavy Spinning. The Fast Top Action allows to always keep control of the bait even at long distance and feel immediately the fish touch. Very tense body and tip, handy and light doesn't feel like a 3.05 mt rod.

“Adrenaline”

- 210 cm - 7 ft
- Casting 5-20 grams
- Line weight 5-11Lbs
- Top action
- Soft bait Spin rod
- Body in High grade carbon Graphite

This fishing rod is light and precise.

You can cast accurately anywhere you want.

Designed with a fast strike response handle and sensitive tip, in order to maximize the vibrations when the fish attack the bait and when moving the bait on the bottom.

2,10 mt 5-20 gr. top action - Adrenaline

NOBLEMAN
NOBLEMAN
NOBLEMAN

“Best Pal”

- Length: 340 cm 11ft
- Cast baits from 15 to 40 gr
- Line weight: upto 25 Lbs
- Top action
- Fast strike response handle
- High carbon body
- Stainless Steel guides
- SIC ceramics

This rod will help in the fight with fish of large size. Designed for medium- heavy spinning, can cast powerfully and far. Overcomes obstacles on the shore like rocks or bushes thanks to its length. Feeling powerful when hold it.

Hunter Valley - New Zealand

“Alpha” series

#4, #5, #6, #7, #8, #9,
#10, #11

Large rainbow caught with “Cortina” #6
In New Zealand by Fabrizio Rustichelli, director of
the company,
during a travel aimed to test the rods in 2012

Available in : 9 ft #5-6

5 sections,
60 cm closed length

Calibrated, light and extraordinary. A jewel made of high carbon with the first 2 sections reinforced with the "K" cloth which gives to the rod an amazing balance of strength and smoothness. Very handy for transportation or storage. You can place it in your normal travel bag instead of going around in the airport with your expensive fishing rod tube. We feel very proud to offer such a good tool at a very low price.

“Orchestra” series

Length: 270cm / 9 Ft

4 sections

Body in T36 carbon Graphite

67 cm closed length

Anodized titanium guides

available in

9 ft: #4 , #5 , #6-7 , #8-9

Light and with a stiff action, this rod is very good for beginners or if you want to save some money. Easy to cast and fair enjoyability level, make of this rod a good compromise quality-price.

Line weight 35 lbs
Lures 50-110 gr
Special grip handle
Alluminium reel seat
SIC guides
Extra linear tension

Outstanding performance
Jigging rod.
188 cm allows to manage
large fish also when they
try to go under the boat.
Very light and resistant.
The vertical grip handle
stabilizes the rod during the
feeling action, making easier
the fishing action
A real great fishing tool.

“Paloma Multicool”

Length: 183cm 6ft

Line weight: 20+ LBS

Rod strength: 20 LBS

Use on the boat for:
Medium-Heavy Spinning
Light - Medium Jigging
